I. POLICY

Routine Foot Care

The following services are considered to be essential components of routine foot care:

- Clipping, trimming, or debridement of nails
- Shaving, paring, cutting or removal of corn(s) [heloma] and/or callus(es) [keratoma and tyloma] Non-definitive simple, palliative treatments such as: shaving or paring of plantar warts that do not require thermal or chemical cautery and curettage
- Other hygienic and preventive maintenance care, such as cleaning and soaking feet, and/or the utilization of skin creams to maintain tone
- Any service performed in the absence of a localized foot illness, injury, or symptoms involving the foot.
- Treatment of a simple uncomplicated or asymptomatic onychocryptosis (ingrown nail) that does not require local anesthesia.

Routine foot care services may be considered **medically necessary** when there is

- Systemic disease (metabolic, neurologic, or peripheral vascular) that would put the patient at risk if provided by a nonprofessional person. Conditions that may result in the need for routine foot care include the following:
 - Amyotrophic Lateral Sclerosis (ALS)
 - Arteriosclerosis obliterans (A.S.O.), arteriosclerosis of the extremities, occlusive peripheral arteriosclerosis
 - Arteritis of the feet
 - Buerger's disease
 - Carcinoma
 - Chronic indurated cellulitis
 - Chronic venous insufficiency

POLICY TITLE	FOOT CARE SERVICES
POLICY NUMBER	MP-2.018

- Diabetes mellitus
- Drugs and toxins
- Hereditary disorders such as but not limited to:
 - Hereditary sensory radicular neuropathy; or
 - Angiokeratoma corporis diffusum (Fabry's); or
 - Amyloid neuropathy
- Intractable edema - secondary to a specific disease (e.g., congestive heart failure [CHF], kidney disease, hypothyroidism)
- Leprosy
- Lymphedema - secondary to a specific disease (e.g., Milroy's disease, malignancy)
- Malnutrition (general, pellagra)
- Alcoholism malabsorption
- Malabsorption (celiac disease, tropical sprue)
- Pernicious anemia
- Multiple sclerosis
- Neurosyphilis
- Peripheral vascular disease
- Raynaud's phenomenon secondary to a concurrent connective tissue disease
- Stricture of artery
- Traumatic injury
- Uremia (chronic kidney disease [CKD])

Evaluation and debridement of mycotic nails, in the **absence** of a systemic condition listed above, may be considered **medically necessary** when the following criteria are met:

- The patient is diagnosed as having tinea unguium (onychomycoses or dermatophytoses)
 - Medical record documentation indicates the patient will be undergoing or has undergone a total knee or hip replacement or coronary artery bypass surgery within a six month time frame
 - Pain and/or secondary infection resulting from the thickening and dystrophy of the infected toenail plate
 - If ambulatory, marked limitation of ambulation (pain and/or abnormality of gait)
- The patient must also meet ONE of the following:
 - Class A Finding - of a non-traumatic amputation of foot or integral skeleton portion thereof; **or**
 - Class B Finding - **AT LEAST TWO (2)** of the following:
 - Absent posterior tibial pulse; **or**
 - Absent dorsalis pedis pulse; **or**
 - Advanced trophic changes; **AT LEAST THREE (3)** of the following are required:
 - Hair growth (decrease or absence); **or**
 - Nail changes (thickening); **or**

POLICY TITLE	FOOT CARE SERVICES
POLICY NUMBER	MP-2.018

- Pigmentary changes (discoloration); **or**
 - Skin texture (thin, shiny); **or**
 - Skin color (rubor or redness).
- Class C Finding – of **ONE (1) from Class B and TWO (2) from Class C:**
 - Claudication; **or**
 - Temperature changes (e.g., cold feet); **or**
 - Edema; **or**
 - Paresthesia; **or**
 - Burning.

II. PRODUCT VARIATIONS

[Top](#)

This policy is applicable to all programs and products administered by Capital BlueCross unless otherwise indicated below.

FEP PPO - Routine foot care is only covered when under active treatment for a metabolic or peripheral vascular disease, such as diabetes.

III. DESCRIPTION/BACKGROUND

[Top](#)

Foot care services include the examination, diagnosis and medical or surgical treatment of conditions and dysfunctions of the foot. Foot care services can be routine or non-routine. In most cases, routine foot care does not require the skills of a qualified provider of foot care services, i.e., a podiatrist or physician. However, there are clinical diagnoses such as poor circulation to the extremities and other conditions where the services of a professional foot care provider may be medically necessary in order to limit complications such as delayed healing or infection.

IV. RATIONALE

[Top](#)

N/A

V. DEFINITIONS

[Top](#)

MYCOTIC refers to being caused by or infected with fungus.

NON-ROUTINE FOOT CARE would include surgical treatment of structural defects or anomalies such as fractures or hammer toes. It also includes surgery for ingrown toenails. An

POLICY TITLE	FOOT CARE SERVICES
POLICY NUMBER	MP-2.018

injectable local anesthetic must be used in order for a foot procedure to be considered "toenail surgery."

KERATOMA (also known as a callus) are hard, light-colored patches of skin that develop as a result of friction or pressure

TYLOMA is a– localized overgrowth of skin due to pressure or friction

ROUTINE FOOT CARE involves, but is not limited to hygiene and maintenance care (e.g., cleaning and soaking of feet, use of skin creams to maintain skin tone); trimming of nails (except surgery for ingrown nails); treatment of corns, calluses, keratoses; treatment of bunions (except capsular or bone surgery); and treatment and debridement of mycotic nails.

VI. BENEFIT VARIATIONS

[Top](#)

The existence of this medical policy does not mean that this service is a covered benefit under the member's contract. Benefit determinations should be based in all cases on the applicable contract language. Medical policies do not constitute a description of benefits. A member’s individual or group customer benefits govern which services are covered, which are excluded, and which are subject to benefit limits and which require preauthorization. Members and providers should consult the member’s benefit information or contact Capital BlueCross for benefit information.

VII. DISCLAIMER

[Top](#)

Capital BlueCross’s medical policies are developed to assist in administering a member’s benefits, do not constitute medical advice and are subject to change. Treating providers are solely responsible for medical advice and treatment of members. Members should discuss any medical policy related to their coverage or condition with their provider and consult their benefit information to determine if the service is covered. If there is a discrepancy between this medical policy and a member’s benefit information, the benefit information will govern. Capital BlueCross considers the information contained in this medical policy to be proprietary and it may only be disseminated as permitted by law.

VIII. CODING INFORMATION

[Top](#)

Note: This list of codes may not be all-inclusive, and codes are subject to change at any time. The identification of a code in this section does not denote coverage as coverage is determined by the terms of member benefit information. In addition, not all covered services are eligible for separate reimbursement.
