

2020 Elite/Exclusive Affordable Care Act (ACA) Preventive Drug List Effective July 1, 2020

Recommendations by
**United States Preventive Services Task Force (USPSTF),
Health Resources and Services Administration (HRSA), and
Advisory Committee on Immunization Practices (ACIP, adopted by the Centers for Disease Control)**

In accordance with requirements put forth through the Affordable Care Act (ACA), your employer has elected to provide evidence-based Preventive Drug coverage at \$0. Below is the list of preventive medications that may be available under your ACA Preventive Drug coverage. This list is subject to the terms of your health plans and may change, based on ACA guidelines updates.

The drugs listed below are grouped into broad categories. Each category includes an alphabetical list of drugs. Please verify with your plan if a generic drug must be tried before the brand version of a drug is filled. **Please refer to your benefit materials for coverage details and the plan website for current information as this list will be reviewed periodically and is subject to change.**

Prescription drugs that aren't listed on your formulary are not covered by your plan, unless approved through the nonformulary consideration (formulary exception) process. Your provider can submit a nonformulary consideration request on your behalf if they think you would benefit from a drug that's not on your formulary.

Generic prescription drugs are shown in lower-case boldface type. Most generic drugs are followed by a reference brand drug in (parentheses). Some generic products have no reference brand. Brand prescription drugs are shown in all capital letters followed by the generic name. Generic medicines are available for many of the brand-name drugs listed though may not be available in all strengths.
