Brand Non-Preferred Prescription drugs	\$50 copayment	\$85 copayment	Not covered	Not covered	
FORMULARY SYSTEM	Open				
UTILIZATION PROGRAM	BENEFIT				
Generic Substitution Program	Voluntary Generic Substitution Program - The member pays the applicable copayment/coinsurance for a generic drug and for a brand drug, even if an approved generic drug equivalent is available and regardless of whether the physician or member requested such brand drug be dispensed.				
Specialty Pharmacy	One original fill at a retail pharmacy for most specialty medications; subsequent refills are covered only through Accredo Health Group, Inc.				
Quantity Level Limits (per prescription, day supply or copayment)	Applicable to selected drugs. Refer to the Capital BlueCross formulary or go to www.capbluecross.com.				
Prior Authorization and Enhanced Prior Authorization	Not Applicable.				

Inpatient admissions as well as certain other services and equipment may require Preauthorization.

Deductibles, coinsurance and copayments under this program are separate from any deductibles, coinsurance and copayments required under any other health benefits coverage you may have.

Participating providers and pharmacies agree to accept our allowance as payment in full—often less than their normal charge. If you visit a non-participating provider or pharmacy, you are responsible for paying the deductible, coinsurance and the difference between the non-participating provider's or non-participating pharmacy's charges and the allowable amount. Non-Participating Providers may balance bill the member. Some non-participating facility providers are not covered. Deductibles, any differences paid between brand drug and generic drug prices, and any balances paid to non-participating pharmacies are not applied to the out-of-pocket maximum. In certain situations a facility fee may be associated with an outpatient visit to a professional provider. Members should consult with the provider of the services to determine whether a facility fee may apply to that provider. An additional cost sharing amount may apply to the facility fee.

On behalf of Capital BlueCross, CVS/Caremark assists in the administration of our prescription drug program. CVS/Caremark is an independent pharmacy benefit manager. Accredo Health Group, Inc. is the exclusive vendor for specialty prescription drugs. On behalf of Capital BlueCross, Accredo Health Group, Inc. assists in the delivery of specialty medications directly to our Members. Accredo Health Group, Inc. is an independent company.

> For more information or to locate a participating provider, visit www.capbluecross.com Autism Spectrum Disorders are covered as mandated by Pennsylvania state law for group size >51.

This group health plan believes this plan is a "grandfathered health plan" under the Patient Protection and Affordable Care Act (the Affordable Care Act). As permitted by the Affordable Care Act, a grandfathered health plan can preserve certain basic health coverage that was already in effect when that law was enacted. Being a grandfathered health plan means that your plan may not include certain consumer protections of the Affordable Care Act that apply to other plans, for example, the requirement for the provision of preventive health services without any cost sharing. However, grandfathered health plans must comply with certain other consumer protections in the Affordable Care Act, for example, the elimination of lifetime limits on benefits. Questions regarding which protections apply and which protections do not apply to a grandfathered health plan and what might cause a plan to change from grandfathered health plan status can be directed to your plan administrator. You may also contact the Employee Benefits Security Administration, U.S. Department of Labor at 1-866-444-3272 or www.dol.gov/ebsa/healthreform. This website has a table summarizing which protections do and do not apply to grandfathered health plans.

TRAS0001 RXRS0001 Large Group - TRADITIONAL Plan 7/15 (7/1/2014)

<sup>\*\*</sup>Select Brands include contraceptives for which there is no generic equivalent.
