**III. DESCRIPTION/BACKGROUND**[TOP](#)

Bendamustine (Bendeka<sup>®</sup>, Treanda<sup>®</sup>, and Belrapzo<sup>™</sup>)

Bendamustine (Bendeka<sup>®</sup>, Treanda<sup>®</sup>, and Belrapzo<sup>™</sup>) are a bifunctional mechlorethamine derivative used to treat chronic lymphocytic leukemia and B-cell Non-Hodgkin lymphoma. Mechlorethamine and its derivatives have alkylating groups which cause damage to the formation of DNA cross-links in the cancer cells. In leukemia, cancerous white blood cells grow and multiply causing normal blood cells from working properly. The bifunctional covalent linkage can cause cancer cell death via several pathways. Treanda, Bendeka, and Belrapzo are active against both dormant and dividing cells.

CLL is a related type of indolent NHL characterized by a clonal proliferation of mature B lymphocytes and blood and bone marrow involvement. CLL is often characterized by infectious or autoimmune complications, enlarged lymph nodes, liver, and spleen, increased lymphocyte count, and impaired hematopoiesis (Bauer, 2012). The clinical course and prognosis of CLL is highly variable, with some individuals experiencing no to minimal symptoms for many years with normal life expectancy, while others are immediately symptomatic at diagnosis or soon thereafter (Wierda, 2010).

NHL consists of a diverse group of malignant neoplasms variously derived from B cell progenitors, T cell progenitors, mature B cells, mature T cells, or (rarely) natural killer cells. The clinical presentation of NHL varies depending upon the type of lymphoma and the areas of involvement. Some NHLs behave indolently with lymphadenopathy waxing and waning over years. Others are highly aggressive, resulting in death within weeks if left untreated.

### VI. BENEFIT VARIATIONS

[TOP](#)

The existence of this medical policy does not mean that this service is a covered benefit under the member's health benefit plan. Benefit determinations should be based in all cases on the applicable health benefit plan language. Medical policies do not constitute a description of benefits. A member's health benefit plan governs which services are covered, which are excluded, which are subject to benefit limits and which require preauthorization. There are different benefit plan designs in each product administered by Capital BlueCross. Members and providers should consult the member's health benefit plan for information or contact Capital BlueCross for benefit information.

### VII. DISCLAIMER

Treating providers are solely responsible for medical advice and treatment of members. Members should discuss any medical policy related to their coverage or condition with their provider and consult their benefit information to determine if the service is covered. If there is a discrepancy between this medical policy and a member's benefit information, the benefit information will govern. If a provider or a member has a question concerning the application of this medical policy to a specific member's plan of benefits, please contact Capital BlueCross' Provider Services or Member Services. Capital BlueCross considers the information contained in this medical policy to be proprietary and it may only be disseminated as permitted by law.*
